Glad I kept his contact information after many years

Mr. Sierra is a pleasure to work with. He is very professional, knowledgeable and easy to work with. Mr. Sierra met our requirements regarding time, even though it was a last minute request. He was always contacting us and requesting feedback. Delivered on time and we were pleased with the final product.

Best lawyer for small business did a great job very professional and was able to work with my limited budget

I am very glad that I found Mr.Sierra due to the positive/win of my case, however it's much more than just that he is very professional and has extensive knowledge of business law and litigation as well as mediation and I'm sure he has knowledge of other areas but my case involved these areas...

I live on the West Coast and I had to engage Rich to negotiate a settlement with a company with whom do business in Florida. He brokered the settlement and avoided litigation. All for a flat fee which was more than reasonable. I highly recommend his services.
