why what we do is important
why what we do is important
why what we do is important
1 Why what we do is important
1.1 Values and Principles
1.2 Networks and Networked Impact

2 Why what we do is important to me
2.1 Family
2.2 Faith

3 Law, Technology, and The Future
3.1 Co-Creating Non-Zero Sum Games
3.2 The Advancement of Our Moral Selves
Why what we do is important
Values and Principles
“I will not be complicit”
- Sen. Jeff Flake (R-Ariz.)
“Humanity is not a zero-sum game”
“Acting on conscience and principle is the manner in which we express our moral selves.”
“Acting on conscience and principle is the manner in which we express our moral selves.”
“Acting on conscience and principle is the manner in which we express our moral selves.”
Separation of Powers
a strong, independent, judiciary
an open, accessible, empowering legal system
¡Hola! Mi nombre es Tom Chi
Eli Beckman @elihbeckman · 4h
My heartfelt congratulations and admiration to @JeffFlake for standing up to @realDonaldTrump’s debasement of the United States. #honor

Jamie Bryant @jambie61 · 5h
Replying to @davidaxelrod @DynelD and 2 others

Words without actions are meaningless. @JeffFlake supports Trump's agenda in votes. He still supports him. Period.

Noma Faingold @Nomawrites · 5h
Replying to @kylegriffin1
That will not happen. In the end, @JeffFlake is no hero for the ages. The whole party will be on the wrong side of history.
why what we do is important
why what we do is important
why what we do is important

"A popular government without popular information or the means of acquiring it, is but a prologue to a farce, or a tragedy, or perhaps both."

James Madison

PROJECT SUNI

Standards for Understanding Networked Impact - for Legal Incubators and "Legal Entrepreneurs"

LEGAL.IO | JUSTICE BRIDGE | UMKC School of Law | Texas A&M University School of Law | KAUFFMAN
Networked Impact in Law: Collective Data Analytics

1) Evidence Hub

2) Standards of Evidence
Networked Impact in Law — Evidence Hubs support:

1) Bold, measurable, and unique approaches
2) Diverse, multi-sector collaboration, at scale
3) Knowledge sharing that encourages accountability
4) Root-cause problem solving
5) Design thinking
Project SUNI: An Evidence Ecosystem

**Gain practical evaluation experience**
- Legalpreneurs

**Gain evaluation skills and support**
- Legal Incubators

**Rewarded for demonstrating a strong evidence base**
- Funders and Policy Makers

**CREATING AN EVIDENCE ECOSYSTEM**

- Understand practical context of what works for clients
- Understand whether projects are having real impact
- Understand best practice in the field of legal empowerment infrastructure
What are the Standards of Evidence?

- Project evaluation
- Practitioner journey
- What works

1. S1: Theory of Change & Evaluation Plan
- Emerging evidence

2. S2: Indication of Impact
- Effective evidence

3. S3: Evidence of Impact
- Model evidence
  - Single replication of evidence
  - Multiple replications of evidence
- System readiness

4. S4: Sound basis
- System ready evidence

5. S5: Robustness of evidence
- Project fidelity
Networked document assembly
Legal Document Assembly Software

Reduce unrecoverable hours and eliminate risk.
Exari DocGen™

The Industry’s Leading Document Generation Software

Exari DocGen™, a document generation and automation tool, empowers companies to achieve an unprecedented level of speed and control in creating and negotiating contracts, from simple agreements to complex documents. The power of mobile computing and cloud-based authoring have been combined to give users the direct ability to generate their own contracts — freeing up legal and IT teams from manual document assembly and allows them to focus on higher value projects.

Exari DocGen™ is the world’s leading enterprise document generation and document assembly software, used by professionals in various industries globally. Implementing an advanced document generation software, like Exari DocGen™, will increase your productivity as well as decrease risk throughout your entire enterprise.

WELCOME TO A2J AUTHOR

Access to Justice Author (A2J Author®) is a cloud based software tool that delivers greater access to justice for self-represented litigants by enabling non-technical authors from the courts, clerk's offices, legal services organizations, and law schools to rapidly build and implement user friendly web-based interfaces for document assembly.

These interfaces, called A2J Guided Interviews, take complex legal information from legal forms and present it in a straightforward way to self-represented litigants. A2J Guided Interviews remove many of the barriers faced by self-represented litigants, allowing them to easily complete and print court documents that are ready to be filed with the court system. Those robust features have led to proven results - 3.5 million A2J Guided Interviews run and 2 million documents assembled since 2005.

A2J Author is available free to interested court, legal services organizations, and other non-profits for non-commercial use.

RECENT FAQS

• Don't use quotation marks in Pop Up names or links!
The web’s only open collection of legal contracts and the best way to negotiate and sign documents online.
Docassemble

A free, open-source expert system for guided interviews and document assembly, based on Python, YAML, and Markdown.

Learn more

Designed and built by Jonathan Pyle
Code licensed under MIT, documentation under CC BY 3.0.
Common Form

composable, verifiable, shareable legal contracts

Common Form is a computer language for legal forms. It allows software to express not just legal text, but the sections, references, definitions, and placeholders that give it structure. Programs that speak Common Form can work together to solve problems word processors and document assemblers can't.

Both the language of Common Form and computer code to use it are licensed, free of charge, on highly permissive, professionally drafted open-source terms. The code is neatly divided into small building blocks that are easy to reuse in other projects.

The Common Form team has written some programs to show a bit of what's possible. You can see them working together at commonform.org:
Proud to announce the release of the Termination of Transfer Tool, a landmark collaboration with @Auths_Alliance ow.ly/SAQO30fOeOy
Dynamic, Digital Agreements

Contracts Are Changing
Model all or parts of legal agreements using our markup language, decreasing the cost and friction of creating, securing, and generating binding contracts.

New Tool to Create "Smart" Contracts
Create, store, and execute legal agreements that interact with blockchain-based smart contracts.

This panel is concerned with addressing the importance of being political as a creator, as the representative of a business or organization, and as a streamer. The purpose of this talk is to help empower people by talking openly about the risks and gains of struggling in a landscape that demands conformity and the continued repression of identities.

“We don’t talk about politics’ is a political stance. Choosing to reinforce the status quo is a political stance” @skinnyghost #twitchcon
